Mature Hollies for Perfect Landscaping

10-year Rederly \$50

Many of our holly enthusiasts prefer hollies older and larger than those of pot grown size. Planted out on 100 acres of our Oregon farmlands are some 15,000 hollies ranging in age from eight to fifty years. For those broad bushy specimen hollies so perfect for achieving immediately a desired landscaping effect, many years of patient and skillful growing are required. Yet choice hollies of compact and symmetrical growth, and ranging in height from 4 or 5 feet up to 15 and 20 feet can be furnished at reasonable prices. Estimates and even Poloroid photos cheerfully supplied.

10-year Silvary \$60
